

ZDHC InCheck solutions

ZDHC InCheck solutions

Empowering suppliers and manufacturers to take control of their sustainable chemical inventory management with ZDHC Performance InCheck (in exclusive partnership with The BHive®) and ZDHC Verified InCheck – Level 1.

The journey of sustainable chemical management

Restricted chemicals are ever increasing, making it essential for manufacturers and suppliers to assess chemical inventories against Manufacturing Restricted Substances Lists (MRSL) and build responsible chemical management practices. Alignment with ZDHC MRSL is a benchmark for many brands and, therefore, suppliers and manufacturers.

Many are turning to ZDHC InCheck solutions to stay ahead and clearly understand how chemical inventories align with ZDHC MRSL Conformance Levels, offering actionable insights as to how suppliers and manufacturers can drive more sustainable chemistry.

What are ZDHC Performance InCheck and ZDHC Verified InCheck - Level 1?

ZDHC Performance InCheck

- Easy-to-read chemical inventory report
- Evaluates facility's chemical products against ZDHC MRSL Conformance Levels
- Provides score of chemical compliance
- Identifies areas for improvement
- Optimise chemical sourcing strategies

ZDHC Verified InCheck – Level 1

- On-site review
- Builds credibility in inventory used for ZDHC Performance InCheck reports
- Covers wide range of operations – from fabric mills, dyeing and finishing units, laundries, and printing units to tanneries and footwear assembly plants

Our ZDHC Performance InCheck

Benefits of our ZDHC Performance InCheck

Our exclusive partnership with The BHive® platform for ZDHC Performance InCheck offers the following key features

- Smartphone-based identification: Quickly upload chemical labels via The BHive® platform
- Automated cross-checking: Scanned chemicals matched against The BHive® database
- Accurate report: Detailed, real-time overview of a facility's chemical compliance status
- Guidance on chemical phase-out: Identify and replace non-compliant chemicals

How Performance InCheck makes a difference for organisations

- ✓ Evaluates chemical inventory against ZDHC MRSL
- ✓ Identifies high-risk chemicals and takes corrective actions
- ✓ Enhances transparency and traceability
- ✓ Reliable chemical compliance data

Our ZDHC Verified InCheck – Level 1

Benefits of our ZDHC Verified InCheck – Level 1

We are approved by the ZDHC to provide Verified InCheck – Level 1, complementing our existing services, including the below, to provide a comprehensive solution for brands and suppliers to control chemicals across input, production processes, and outputs.

- ZDHC MRSL Conformance Levels 1, 2 and 3
- ZDHC Wastewater Testing
- ZDHC Performance InCheck

Why ZDHC Verified InCheck – Level 1 is necessary

- ✓ ZDHC Performance InCheck demonstrates ZDHC MRSL conformance, but it is self-assessed
- ✓ ZDHC Verified InCheck – Level 1 provides another layer of assurance
- ✓ Approved verifier confirms accuracy
- ✓ Improves brand reputation and alignment with global standards

Are our ZDHC InCheck solutions right for you?

Our ZDHC InCheck solutions, in partnership with The BHive®, provide manufacturers and suppliers with the tools needed to gain full visibility into the ZDHC MRSL Conformance of chemical inventories – enabling them to take full control of their sustainable chemical management.
